## THE BUTLER CASE.

#### An Error Has Caused it to be Continued.

Because of an error in copying the bill of expenses filed by the defendant in the case of Edward Butler, of St. Louis, who was convicted of attempted bribery in the Boone county circuit court last November, the hearing of his appeal in the state supreme court will be delayed for

The error was made by the private stenographer of the defendant and in consequence the case will not be at the conclusion of the Butler trial at Columbia in November.

The official stenographer of the Boone county circuit court filled the customary report of the trial written in shorthand, in the clerk's office. When an appeal is taken the defendant is entitled to the use of the If so send us your photo and \$2 papers in making a copy for the supreme court.

It is the custom for two copies to guaranteed for twenty years and be made, one to be filed in the office of the circuit clerk and another to be sent to Jefferson City. The private stenographer of Butler made but one copy of the transcript. The clerk retained this on file, but had no copy to send to Jefferson City.

The error went unnoticed until re-Mrs. James Yancy is improving cently, when Mr. Folk discovered that the Butler case was not on the docket for the May term of the supreme court. He requested that the matter be investigated in Co-Miss Hattie Harvey is very ill lumbia and the error was revealed.

#### Columbia Teachers Elected.

The Columbia board of education met Thursday evening and elected teachers for the ensuing vear. The room which was closed The Professional World is only last year will remain closed owing to the shortage of school funds, and only six teachers were elected, Mrs. Emma Rout entertained as the Prin. Prof. J. B. Coleman, was re-elected several weeks ago. The following old teachers were Mr. and Mrs. William Salisbury re-elected: Prof. E. W. Emory, Ethel Fowler, Mrs. Virgie L. Waldon. The new teachers were who succeeds Mrs. M. R. Akers, Misses Mayme Manpin and and Mrs. Annie Wright, of an applicant for re-election. Miss Walton is a graduate of Lincoln Institute and is now employed in the Marshall public school, and is known to be a very successful teacher, while Mrs. Wright has had ten years experience and is Both of them were highly recommended and will doubtless add much to the teaching strength of Fred Douglass school.

#### WEATHER AND CROPS.

U.S. Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, Missouri section Left Liberty School in a Body for the week ending May 11, 1903, published by A. E. Hackett, section director:

The mean temperature of the past week was very near the normal in all sections of the state, except the southwest, where there was a marked deficiency, and there has been about the average amount of sunshine. Light frost occurred in some localities during the fore part of the week but did little or no damage. Over portions of the preacher's school and consequently southwest section the rainfall of the week ranged from one to over The college enrollment numbers 400. two inches, but eisewhere it was generally less than one-half inch, tion. many localities receiving none. Warm showers are now needed.

Except in some of the south-

week has been very favorable for one agent will be engaged for the farm work and plowing and corn same town, only persons of good planting have been vigorously pushed. In most of the southern counties planting is nearing completion, and from one-half to threefourths of the crop has been planted in portions of the central and northern sections, but in many much it may be ridiculed as being counties of those sections less than neither Christian nor scientific, one half the land intended for corn has thing is certain-it cures bad not yet been broken. In the northwestern counties much corn will other scientists are often sour and be listed. The soil is now in bet- cross, and hardly to be differenter condition to work than at any tiated from the rest of mankind by previous time this spring, but any impress of their creed or callthere is much complaint that it is ing, but the distinguishing cloddy and hard to pulverize, and characteristic of the Christian in portions of the central and Scientists is their radiant cheerfulnorthern sections it is still very ness and serenity of temper. #### 50 STUDENTS LEAVE WILLIAM STITTITTH THE THE THE STATE OF JEWELL COLLEGE.

# Because Faculty Refused to Dissolve Fraternities.

LIBERTY, Mo., May 12 .- Fifty Baptist ministerial students left William Jewel College for their homes to-day because the faculty refused to grant their request that the fraternities of the college be dissolved.

The students give as their reason for making the request that nearly all the trouble that arises among the students is due to the fraternity men; that the college is regarded as the ministerial students are unjustly forced to bear part of the blame. The ministerial students pay no tui-

#### Agents Wanted.

We desire to engage some good agents to solicit subscriptions for western counties, where heavy the Professional World. Liberal rains kept the ground wet, the commissions will be paid and only standing need apply. Address, Professional World, Columbia, Mo.

#### A CURE FOR BAD TEMPER.

From the Kausas City Truth.

Whatever may be thought of Christian Science, and however temper. Other Christians and of humanity that they could tell a chant from the professional man, tell a Christian from a non-believer, much less recognize in men's lineathan in it.

But, whatever the merits of Christian Science in other respects, it is a remarkable fact that it does leave an outward and visible sing on the countenances of those who practice it, and its happy effect upon their dispositions is indisputable. And so, whether it cures diseases of the body or not, it certainly cures the worst and commonest diseases of the human mind, crossness and despondency. And this is triumph, indeed, for the advocates of the absolute supremacy of mind over matte.
